PLEBISCITE PASSED

Resolve Goes To President

Special Bulletin Cable

WASHINGTON, April 18.—The resolution providing for submitting the question of Prohibition to the voters of the Territory of Hawaii passed the House of Representatives today and goes to the President for his signature. July 26 is the date set for the election.

MONK

Dillingham Denies Friar Land Deal

"I never mentioned the subject of Friar lands to Mr. A. F. Thayer, never even used the word land in any connection whatsoever, and I never saw much of Mr. Thayer while he was here," stated B. F. Dillingham this morning.

In continuation, Mr. Dillingham said: "Why should Mr. Thayer use my name any more than other people's? He does not represent me in the Philippines, and to the best of my knowledge does not seem to represent any of the planting community here, in these Friar lands."

Mr. Thayer left this city for Manila the latter part of December and arrived at the capital of the Philippines on February 6. He is supposed to have left this city with a sum of \$15,000 with which to purchase Friar lands in the Philippines.

Upon arrival in Manila, Mr. Thayer made it known that he was representing the B. F. Dillingham Company, who were considering a proposition of acquiring a large tract of land with a view to putting it under sugar. As Mr. Dillingham has stated that he knows absolutely

nothing about Mr. Thayer's doings or why his name should be used in connection with this land deal, there seems to be some misunderstanding somewhere.

Mr. Thayer is now in Manila and a report has been circulated locally that he has just purchased ten thousand acres at \$6.50 per acre of the Calamba Friar estate, Laguna province, near Manila—these lands are supposed to be rich sugar lands—and that he contemplates making some additional purchases in the near future.

Before leaving Honolulu, Mr. Thayer accepted a position under Dr. V. S. Clark, in the census office. He left this position and proceeded at once to the Philippines for the purpose, so he stated, of acquiring Friar lands in which several local firms were interested.

Before leaving for Washington, D. C., Walter Dillingham stated to a Bulletin representative that he knew absolutely nothing about these Friar lands, and so far as Mr. Thayer was concerned, Dillingham interests were not being handled by Mr. Thayer.

ESCAPE FURY OF CHINESE MOB

A cable telling of the escape of a group of American mining engineers and the safety of his brother from the murderous fury of the Chinese mobs at Changsha, China, were received this morning by Rev. Y. T. Kong of this city. The cable is brief but states that his brother, a mining engineer, and his two fellow engineers, a Mr. Humphreys of Berkeley, California, and an engineer named Shearer, whose home is believed to be in Chicago.

S. T. Kong, of whose safety the cable tells, is well known in Honolulu having been educated at Punahou and afterward attended Columbia and graduated from the department of mining engineering. He passed through Honolulu a short time ago with a large consignment of mining machinery which he purchased in the East to be used in connection with the Chinese Imperial Smelting Works which is located at Changsha. The two American engineers of whose escape the cable tells, are employed with Dr. Kong by the Chinese government and grave fears were felt for them when the news came of the bloody riots that have accompanied the rice famine in the province of Changsha. The news cables received yesterday told of the

murders of the Governor of the province and his son and stated that the foreigners were fleeing for their lives and that more bloodshed was feared.

PAVING ORDINANCE FOR PASSAGE

The paying of Fort street will either be authorized by the City and County Board of Supervisors, at the regular meeting to be held at the city hall tomorrow evening or it will be thrown out by a majority vote of the county commissioners.

The matter which is of more or less vital interest to the Bitulithic Pavement people will come up for a third reading at the meeting. The present status of the board has been four members favoring the pavement proposition, with three members aligned against its passage.

K. Ishikawa entered a plea of guilty to an indictment for violation of the Edmunds Act in the United States District Court this morning. He will be sentenced tomorrow. He withdrew his plea of not guilty to one of the counts in the indictment.

The cases pending against Moses Koki, charging him with the embezzlement of postoffice funds, were continued this morning by Judge Robertson to April 20th.

500,000 Women Appeal

WASHINGTON, D. C., Apr. 18.—Appeal for suffrage in the name of half a million women was presented to Congress today. The monster petition is an incident of the assembling of the Woman's Suffrage Convention in this city.

Roosevelt Draws Big Crowd

BUDAPEST, Hungary, Apr. 18.—Col. Roosevelt's greeting in this city was almost that of a mob. A tremendous crowd gathered to see him, and the people were quite beyond the power of the police to control. The chief of police was among those injured in the crush. His leg was broken and many others suffered severe injuries.

CHANG SHA IS QUIET AGAIN

SHANGHAI, Apr. 18.—Everything is reported quiet at Changsha, the troops having taken control and quelled all disorder. Three Spanish missionaries are reported drowned as the result of a British gunboat running down a Chinese junk.

PUBLICITY FOR CAMPAIGN FUND

WASHINGTON, D. C., Apr. 18.—The House today passed the bill requiring publicity for all contributions used in connection with national political campaigns.

STRIKERS RIOTING

SCHENSVILLE, Pa., Apr. 18.—One thousand strikers are out of the pressed steel car works. Riots were incidents of the day.

SUGAR

SAN FRANCISCO, Apr. 18.—Beets: 88 analysis, 14s. 01-2d; paritv. 8c. Previous quotation, 14s.

LOOKS BRIGHT FOR PHONE STOCKS

Telephone operating expenses reduced and the price of telephoning increased is still the tip that seems to be going the rounds in connection with the purchase of Mutual Telephone stock.

According to one man who has been buying the stock the plan of readjustment contemplated is to increase the rates on business phones and make a special long distance charge for telephoning to people in the country. This seems to be following out the scheme of the mainland where an extra charge is made for a connection outside a certain city radius. The presumption of the buyers is that the company will be in a position to pay good sized dividends very soon after the new system is installed.

HATS OFF AT CENTRAL UNION

Hats off at Central Union church after this. At yesterday morning's service, Dr. Doremus Scudder announced that the ladies of the church decided that hereafter they would appear at the various services held in that edifice with bared heads.

The announcement was received with marked approbation by suffering but devout mankind, who in the past has been obliged to absorb his religious inspiration from behind vast and picturesque creations of the milliner's art.

LEADEN PELLETS FOR PROMOTING PEACE

Leaden pellets for promoting peace in Philippine provinces to the amount of two million rounds make up a portion of the cargo that is being borne to the Far East by the Pacific Mail liner Siberia, that came alongside the Anakea wharf at 10 o'clock this morning.

Captain Adrian Zeeder reports a fair trip down from San Francisco, with the exception of the first day out, when Old Neptune kicked up a little fuss as the vessel cleared the Farrallones.

About forty cabin passengers who will leave the vessel at this port found room on the spacious Pacific Mail liner. This number includes a few kamaainas who are returning from visits to the mainland.

The Siberia brought four hundred and sixty tons of freight for Honolulu. There are two packages weighing twenty-seven tons each, which are part of the necessary machinery for the equipment of a sugar mill. The cargo for this port included but one automobile. The Siberia left San Francisco with 4300 tons, and of this about four thousand tons will be left at Manila.

Two carloads of telephone material for the new Honolulu system have arrived by the Siberia. This will be welcome news to the subscriber who is awaiting an improved service.

A shipment of 2500 bales of raw cotton will be left at Japanese ports for the big spinning companies at Tokyo and Osaka.

The Siberia is making a special trip to Manila in order to discharge the large government cargo. Consequently, the vessel will cut out Shanghai and Hongkong on the outward trip.

Among those who arrived at Honolulu this morning by the liner is Louis Ayres, who represents the New York firm of architects who have to do with the plans for the new Federal building. Mr. Ayres will make a careful investigation of the local situation and a conference has been arranged between Mr. Ayres and the various heads of Federal departments. He expects to remain here for sufficient time to get a pretty good line upon the requirements of the Federal departments as it pertains to enlarged quarters.

Bruce Cartwright Jr. is returning from a mainland trip in the interest of business and pleasure. Colonel A. G. Hawes was also an arrival by the vessel. He has been on a business trip to the Coast.

Forty-five tea buyers are traveling by the Pacific Mail liner, for various ports in the Orient to make purchases of the new-season crop. The tea men hail from different cities, and are led by J. Walter Clifton, who is known as "the duke of the tea men." The party includes Alexander Campbell, E. Quackenbush, A. C. Byer, J. C. Seifried, F. E. Fennell, W. A. Wilson, W. S. King, J. W. Odell, Arthur Hellyer, W. Hohmeyer, Fred Ogilevie, J. Becker, W. R. Flatow, E. J. Cowan and L. F. Pyle.

J. C. Alsworth and R. W. Lewis of Portland and their families are passengers on the Siberia for Yokohama. G. A. Hancock and E. Harasmy of Los Angeles are also booked for Yokohama. Mrs. Hyde Smith of Yokohama.

Redmond Stays By Budget

LONDON, Apr. 18.—Powerful support for the Liberal Government came today from the Redmondites, when it was announced that they would support the Lloyd-George budget at all stages. This is believed to assure a solid majority on one of the great issues of the recent elections.

That an important change of front has been made by Redmond may be understood from the following taken from a British paper of early March:

Mr. John Redmond, in a speech at Dublin, said that the great issue at the election was not the budget or land reform. It was Home Rule for Ireland. The veto of the Lords stood against Home Rule, and the result of the election had been to return a majority of over 120 against the Lords' veto and in favor of Home Rule, and even if Ireland were not reckoned at all there would be a purely British majority of sixty-two against the Lords and in favor of Home Rule.

"The pledge that decided the Irish Party to support the Liberal Party was the Prime Minister's pledge that neither he nor his colleagues would ever assume or retain office again unless they were given assurances that they would be able to curb and limit the veto of the Lords. (Applause.) He had always regarded Mr. Asquith as a man of his word. It was inconceivable that in this matter Mr. Asquith should now waver. (A voice: "Don't let him," and loud applause.)

"To do so," said Mr. Redmond, "would be in my judgment, to wreck the Liberal Party and to drive them for the next twenty years into the wilderness, and I would not insult him by suggesting that he has any such intention." (Loud applause.)

"If Mr. Asquith is not in a position to say that he has such guarantees as are necessary to enable him to pass a Veto-Bill this year and proposes to pass the Budget into law and adjourn the veto question I say that is the policy that Ireland cannot and will not approve." (Enthusiastic and prolonged applause, the whole company rising to their feet.)

In conclusion, Mr. Redmond said that he would subordinate every other question, even the Budget, to the question of Home Rule. If Home Rule were to be put aside, then he would fight the Budget.

ANOTHER CHINESE PRINCE COMING

Honolulu will again have an opportunity of extending a formal welcome to a Chinese Prince. According to information that was received, when Prince Tsai Tiao arrived in Hawaii, his elder brother had been decided upon as the man who will come to the United States to make a study of the naval system of the country with the possibility of extending his trip of education to Europe.

The sending of the two princes of the Chinese Imperial household to study the art of war is taken as an indication of the ideas of progress that have taken hold of the present ruler of the Empire.

There is a general feeling of hostility to Lord Li, the son of Li Hung Chang, who accompanied Prince Tsai Tiao. Lord Li is not gifted with the diplomatic abilities that characterized his distinguished father and by his disregard of the hours of the program of entertainment has left behind him anything but pleasant feelings among the local Chinese.

Charles S. Martin swore out a warrant this morning for the arrest of Captain John Hudson, alleging that the captain had used threatening language to him. Before the warrant was served, Martin again appeared at the police station and swore out another warrant to the effect that Hudson had consummated his wishes as regards assaulting him. The matter will come up before Judge Andrade in the morning.

Murderer Grace Still At Large

Wife Of Fugitive Still Held In Custody By The Police

Sheriff Jarrett is of the opinion that Grace is registered at the Anderson Grace, the escaped Young Hotel in disguise as a woman. Another theory as to how Grace one since half past two o'clock on the Friday afternoon, when he was noticed by a Japanese out near the water end of the car line at Diamond Head, free swimming bath at Waikiki. The Japanese thought nothing of the matter, as he was accustomed to just reached his neck, then proceeded to make his way along the reef and did not hear of the escape of Grace. In near Camp Very, where he emerged. While there is no doubt that Grace's first act would be to change his striped suit for less conspicuous street where he obtained clothing. garments, there is no positive proof, that he took the suit of brown on the hunt for the man, but no clothes from a house on School street. It is very probable that he did take the clothing and blankets, but the story of Carroll, who alleges that Grace a-tossed him and borrowed some tobacco, is thought to be on a par with a pipedream of another.

Passenger Smuggler Caught On China

Customs Officials At San Francisco Too Clever For H. K. Mansfield

SAN FRANCISCO, Apr. 19.—Officially the value of several hundred dollars, undeclared, in the luggage of H. K. Mansfield of New York, who was a passenger on the steamer China, arriving yesterday from the Orient, was seized by the customs inspectors under Chief Boarding Officer Charles Stephens and ordered confiscated by Collector of the Port Stratton. A roll of silk worth \$50, which Mansfield smuggled ashore under the eye of Collector Stackable's men at Honolulu, and which he shipped by Wells, Fargo & Co.'s Express, was also seized. Mansfield was permitted to retain a number of necessities which he had declared after he paid the duty.

The smuggled articles in the New Yorker's baggage included jewelry, silverware, rubies, silk shawls and handkerchiefs, embroidered waist patterns, British feathers and other Far Eastern wares of rare value. Mansfield proved himself an adept in the art of smuggling, but apparently did not figure that the San Francisco customs officials were so alert of vision and penetrating of hand.

Told Fellow Passengers. Mansfield had endeavored to induce several of his fellow passengers to take some of the stuff ashore for him, and it was from them that Boarding Officer Stephens got the tip that the traveler's luggage was a riot of goods which he had failed to include in his declaration. One passenger, J. J. Johnson, accommodated Mansfield to the extent of taking a few match boxes, but he was quick to tell the officials all about it after Stephens had offered one or two suggestions.

As Mansfield, large of person and feature, with an immense diamond flashing from his tie, walked blandly off the gangplank, Boarding Officer Stephens stepped up and tapped him on the arm. Mansfield looked up and when he saw the inspectors his jaw dropped, and likewise his fancy cigarette holder.

Stephens told him of the information he had received and Mansfield

promptly admitted that it was true that he failed to declare a few things in his baggage.

"But they're nothing to speak of," he laughed after a fashion when he recovered his breath. "He was very

FIFTEEN MILES RUNNING RACE

On May 20, Decoration Day, there will be a fifteen-mile foot race at the league grounds, and some of the fastest men in the Territory over the distance are expected to enter for the event.

The race will be in the nature of an exhibition race, as the oxygen machine will be in use, and the contestants will be allowed to use it at will. The men will fill up before the race starts, and then when "all in" can drop out for a "snifter" and then resume their running as good as new.

Kaon, Jackson, Gones, Enos, Scharsach, Hayes, Fahy, Corbello and several others are, according to Nigel Jackson, going to start in the fifteen-mile run. The promoter expects to see the record for fifteen miles broken, and if the oxygen does all that is claimed for it, some remarkably fast times will surely be put up.

BUCKLAND GOES ON THE SIBERIA

Among the passengers leaving on the Siberia this evening for the Orient are C. R. Buckland and his wife. Buckland has been suffering from a nervous breakdown and his physicians have advised that a sea trip would be beneficial to his health.
